Many Fine Openings Here.

"I consider that Ogden offers one of the grandest openings for any man of capital and energy of any city in the west. This is true of practically every line of business," Mr. Ward said. "but it is quite natural that ! should think it especially true of real estate. I am convinced that no city in the west offers such splendid values as Ogden does, and, if we can judge at all by the experiences of other cities that had less to justify it, there will be a strong upward movement in all real estate here

When our ranchers make what they think is enough money, they all get ready to sell out and come to Ogden. They never seem to consider any other point. I know of a num ber who have disposed of their holdings, retired, and come to Ogden to ings, their bones. They say there is no other town which has so many advantages as a place for home building. I know of several ranchers right now who want to sell out, retire and come to Ogden to live and they are just waiting to find the right buyer for their properties in order that they can cerry out this plan.

one of ever-increasing magnitude. Right now, one company in Evanston is shipping (at a conservative estimate) 30 cars of coal every day. The Lezeart coal mine has a vein 130 feet thick which is said to be the largest vein known. Their coal, too, contains more oil than any coal known.

"Then we have a new coal-mining project known as the Bear Lake Coal company. They have just found a wonderful new vein eleven miles east of Evanston and it is their belief that they have discovered the famous Cumberland vein. A wonder-ful increase in coal production may be expected in our part of the state from now on. In fact, it may not only be expected, but relied upon. New Wyoming Oil Fields.

"Fourteen miles east of Evanston is a magnificent oil field which is growing in importance every day in the year. More than 200 wells are already showing considerable activity.
